PERSONAL PROFILE

Name	:	Aye Thiri Ko
Date of Birth	:	08, June, 1997
Gender	:	Female
Marital Status	:	Single
Nationality	:	Burmese
Current Address	:	Yangon, Myanmar

SUMMARY

I want to apply for a job as a **Software Developer/System Engineer.**

I have completed **B.Tech** and **B.E** degree specializing in Information Technology (2014-2019) and had experience of Projects, Internship and final year Thesis during my university years. Since 2020, I started to work as a **System Engineer** and experienced in **nearly 2 years** with the development cycle for projects in various programming languages including HTML, CSS, PHP, Laravel, WPF.NET, C#, MySQL and related software tools. I have mostly passionate enjoyment in UI design, but then I will definitely keep learning the other programming languages in my future. My career objective is to become a professional Software Developer (Software Engineer) expanding my skills and effort in technology, as a result of making a significant contribution to benefit the human society with technology. My first goal is to improve myself, skills and get experiences learning in foreign countries, especially in Japan. So, I applied for this position in your company.
